MEMORANDUM FOR: NSA/TCO

ATTENTION :

THROUGH :

SUBJECT : Mensuration of Crates at Saratov Airframe Plant
No 292 & Komsomolsk Airframe Plant No 126, USSR

REFERENCE :

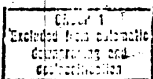

(NPIC Project 11118-5)

1. This memorandum is in response to your requirement which requests the mensuration, comparison, and analysis of crates observed at Saratov Plant 292 on [redacted] and at Komsomolsk Plant 126 [redacted]

2. Apparently identical crates were observed at the Saratov Plant 292, the Saratov Airfield South (which is the fly-away field for the Saratov Plant), and at the Komsomolsk Plant 126. These crates are rectangular in shape with no visible protuberancies and possibly have a slightly curved top. [redacted]

3. The locations of the subject crates are as follows:

- a. 19 in a row in the central open storage area of Komsomolsk 126
- b. 14 scattered in an open storage area in the northwest corner of Komsomolsk 126
- c. 2 near a taxiway northwest of Komsomolsk 126
- d. 4 in an open storage area on the west side of Saratov 292
- e. 94 on and near a parking apron at Saratov Airfield South.

4. Smaller crates and objects of varying dimensions are visible at both plants; however the crates discussed above are the largest crates at these plants and most nearly conform to the assumed size (30-40 feet) of a suspected unidentified missile (article A-2) referenced in your report.

5. This project is considered to be complete.
